Ottawa Takes Action to Meet Timber Crisis

OTTAWA, Sept. 10.—(CP)—Munitions Minister Howe said last night that Canada's new gravel timber shortage is being met by an eight-point governmental program to assist operators in stimulating output, and to curtail civilian use of forest products.

In the statement, released through the munitions and supply department, Mr. Howe said the shortage was caused by "enormous war demands from the United States" and by a drop in production this year.

APPEALS TO LOGGERS

The munitions minister appealed to every man in the industry, from the most obscure logger on a small hillside to the most well-known operator, to "roll up his sleeves and boost production."

Production in 1941 was approximately 3,000,000 feet but because of the labor shortage 1942 production may be substantially less, he added. Commitments for the remaining four months of the year called for delivery of 1,040,000,000 feet for war purposes, which about three-quarters is for Britain, the United States and other Allied nations.

Timber production was boosted, the statement said, since the commitments will be substantially in excess of the lumber obtained from Canada's forests during the balance of this year.

Mr. Howe said "this means that we will have no shortage of lumber spare for the civilian. Any civilian gets must come from the overseas, mainly from the United States."

The seriousness of the situation is underlined by the need for extra storage facilities for the bumper crop in the United States. Quantities of lumber must be stored for building these made facilities.

EIGHT-POINT PROGRAM

The eight-point program, worked out by the munitions and supply department, was announced as follows:

1.—Effective immediately, the lumber and logging industry is officially classed as an essential industry.

2.—The director of the Selective Service (Elliott M. Little) will provide, at the earliest opportunity, more manpower, and full labor, for the year-round lumber camp timber area, and for full and winter logging in the east.

3.—The use of timber by civilian industries, railways, and municipalities will be rigidly controlled. Effective measures will be introduced shortly and more stringent control will be exercised over the use of forest products by the Dominion government and its agencies.

4.—The production of lumber will be controlled by the new wartime administrator of the War Production Control Board (H. J. Macdonald).

5.—The production of lumber will be controlled by the new wartime administrator of the War Production Control Board (H. J. Macdonald).

6.—To spare production, price in the lumber market will be permitted. These increases will be limited to the cost of raw materials and labor, and will not be passed on to the civilian consumer. Retailers may increase prices when the square is too low.

FINANCIAL AID

7.—A lumber division of the Commodity Prices Stabilization Corporation will set up immediately, with an experienced lumberman at its head, this division will provide financial assistance where and when it is required to stimulate economic production. No sound lumbering operation will be held up for lack of financing so long as it is practical and in the national interest.

8.—The general trading policies of the Dominion of the industry will be maintained.

Toronto, Minister Named Moderator Of United Church

BELLEVIEW, Ont., Sept. 10.—(CP)—Rev. J. R. P. Selator of Toronto last night was elected moderator of the United Church of Canada at the 10th general conference. He succeeds Rev. Andrew S. Tuttle, who was moderator of the 9th conference in 1938.

Dr. Tuttle, the retiring moderator, is principal of St. Stephen's College at Edmonton.

The 10th conference, elected on the third ballot over four other nominees, met at the Hotel Toronto, Toronto, on the evening of Sept. 8.

Other nominees were: Rev. Leslie P. Driedger, Esquimaux, and Rev. C. L. Bates, former principal of the Japanese College, Tokyo, and now of Ottawa.

Canadian Air Force Crew Acclaimed by Thousands On Triumphant City Visit

Continued from Page One

In the absence of His Honor Lieutenant Governor J. C. Bowen, Premier William Aberhart, His Worship Mayor J. W. Fry and high officers of the R.C.A.F., the Royal Canadian Navy, the Canadian Army, and United States forces, the five visiting airmen posed for news reel shots, photographers and talked over the radio at the airport.

Among those who greeted the visiting airmen were: Mrs. R. L. Hoar, Mrs. Norman McPherson, Mrs. Arnold Taylor, representing Air Force Mothers' Club, Col. W. F. (Wop) May, O.B.E., D.F.C.; Capt. James Bell, J. H. Wildman, Fred Brown, William May, representing the Air Force Cadet committee; John McArthur, Lieut. G. M. Brown, R.C.N.V.R.; Lt. Col. E. Brown, M.M., E.D.; Lt. Col. T. M. Bolen, U.S. Air Force; Wing Cmdr. G. M. G. Farrell, D.F.C., Sqdn. Ldr. G. Hendricks, Ph. Lt. R. L. Bain, Ph. Lt. R. P. Ople, Ph. Lt. W. P. Graham, Capt. Sqn. Ldr. Colin D. MacKinnon.

Standing at the end of the reception line was P.O. Bruce Croxall, D.F.C., of Edmonton, who is home on leave. He and P.O. Higham had been in England and were close friends.

"Hey, where did you pop up from?" P.O. Higham asked.

HOME ON LEAVE

"Just home on leave," replied P.O. Croxall, as they shook hands.

Croxall looked at each other, in sign of the Distinguished Flying Cross and both grinning.

"Nice going," said Croxall, "welcome home," replied Higham.

Then they were the recipients of handsome engraved silver cigarette boxes from the Province of Alberta, after a shower of welcome from Premier Aberhart.

In five to ten minutes away from the city to 104 avenue and 101 street where a parade made up of R.C.A.F., Australian and New Zealand airmen, R.C.M.P., Canadian army police motorcycle squad and No. 12 Edmonton squadron of the Air Cadets of Canada, was formed.

There the five bomber crew members transferred to high speed army command cars, to which the names of the airmen were affixed, and the parade moved on.

With the band of No. 4 I.T.S., providing stirring music, and the band of the Air Cadets at the rear, the parade passed south along 101 street in spirited fashion.

Thousands lined both sides of the street on 101 street and the mass of humanity became even more dense when the procession swung west along Jasper avenue after reaching the intersection of 101 street and Jasper avenue.

ACKNOWLEDGE CHEERS

The airmen repeatedly removed their caps to acknowledge the cheers of the crowd as the parade passed west on Jasper to 101 street, and then returned eastward along the south side of the avenue to 100 street. P.O. Higham caused new outbreaks of cheering by giving the famous thumbs-up gesture of victory on many occasions.

The parade ended at the Macdonald hotel, where the airmen rested for an hour until an official civic banquet in their honor.

In his address of welcome to the heroes, Premier Aberhart said that "in meeting you we feel we are coming into touch in spirit with the great host of gallant young men who now serve our country in many of the theatres of war throughout the world."

CHEERY WAR-TIME THOUGHTS

"Through all the centuries nameless men have fought in nameless places—their sole monument a protected coast and an unruined countryside."

Roosevelt Gives Labor Day Address

President Roosevelt is pictured in the above soundphoto as he delivered his historic Labor Day radio address to the nation and to all Allies from the White House. He called upon Congress for legislation by October 1st specifically authorizing the president to curb farm prices and wages in the struggle to avert economic chaos threatened by inflation. If Congress fails to act by the dead line, Roosevelt warned he would act without the special legislation.

Fifth Column May be Behind India Trouble

Continued on Page 3, Col. 1

Indians have volunteered for war service and that 40,000 volunteers in the last two months made an excellent record.

"We are glad to have you pay us a visit for we trust that this occasion may serve to weld more completely the bond that exists between Canadians in civil life and Canadians on active service abroad."

"I would hope that just as we are inspired to greater service by the splendid work you are doing, so may those who follow you over here, be encouraged by the excellent example you have set for us all."

"We realize that, in your hands and in those of your comrades, lies the future welfare of humankind."

"Daily you carry the fight to the enemy. Each blow you strike is a blow in defence of freedom in its broadest sense."

"I wish to declare our convictions: freedom to live and move and to work as we choose; freedom from want and fear. Your splendid enterprise typifies the enthusiastic efforts of young people to lead the earth of a new day."

DESTROY VICIOUS TREASON

"Our work, I trust, typifies the determination of our people to rid the world of an equally vicious treason."

"Together we shall fight and work to the accomplishment of victory in war; and also a great victory in the coming post-war world."

"It is in all humility, and with due admiration that we point out to you that all our efforts would avail nothing apart from your magnificent contribution."

"To us who serve in a small measure at home, it provides a great thrill to make personal contact with courageous young men who have fearlessly faced the enemy and put them to rout."

"We feel that in meeting you we are coming in touch in spirit with the great host of gallant young men who now serve our country in many of the theatres of the war throughout the world."

In honoring you we would honor them as well.

"As premier of the province of Alberta I want you to know that we appreciate your presence here as a token visit of all the men of the Royal Canadian Air Force."

"We therefore ask you to accept from us this welcome as a token of that greater welcome which awaits all of you when you return victoriously from this war."

"Among the rewards which you will have rightly earned at this time, will be a greater measure of security, a full-fledged freedom, and a deep future generation, and a deep future satisfaction that you have done your duty for a Canada of which we hope we may all be proud."

TOKENS OF APPRECIATION

"As a token of these rewards and of our appreciation of your historic visit, may we present to each of you, on behalf of the people of Alberta, these small silver gifts."

"I trust that you will accept them as a symbol of the esteem which we all hold for you and your gallant comrades."

"God bless you."

passed down through the heart of the city it made a striking picture beneath the clear blue sky of the fine autumn afternoon.

City police officers on beflagged motorcycles led the way. Next came the smart band of No. 4 I.T.S. under the direction of Bandmaster Sgt. A. G. Causon.

Mounted police of the R.C.M.P. with their scarlet tunics flashing in the sun were next in line and then came a flight of airmen from No. 2 Air Observers' School.

Next came the command car containing P.O. Higham, Chief Justice Harvey, Wing Commander J. A. Hutchison, and Wing Commander G. M. Farrell, D.F.C.

AUSTRALIANS FOLLOW

With their deep blue uniforms a sharp and pleasant contrast, a flight of Australian airmen came next, with the banners of the R.C.A.F. carried proudly by the color bearers.

Another command car, carrying an observer was next, and Premier William Aberhart, Wing Commander W. C. Webster and Col. W. F. W. Hancock were in this car.

New Zealand airmen, also marching smartly, followed, and then came a car with another bomber crew member and his Worship Mayor J. W. Fry, Capt. W. R. "Wop" May, O.B.E., D.F.C., and Capt. A. R. Gillies.

No. 4 I.T.S. flight of airmen was next in line and a car with another bomber crewman, Lieut. George Crawford, Lt. Col. E. Brown, M.M., E.D. and Ph. Lt. W. Paul Graham.

PRECISION FLIGHT

The precision flight of airmen from No. 2 training flight was next and then the last car with a bomber crew member followed. One lucky air cadet rode with him in the jeep, which was pressed into service. The parade ended with No. 12 Edmonton Squadron of the Air Cadets of Canada, led by Cadet Squadron Leader Colin Mackenzie.

The air cadet band and the Red Cross followed out the parade.

Everything in connection with the procession went off smoothly. Private automobiles were held back from the line of march as were the

ACTION AT LAST Alberta Fliers Pioneer as Army Co-Operation Squad During Assault on Dieppe

OTTAWA, Sept. 10.—(CP)—The first Royal Canadian Air Force squadron to go overseas as an army co-operation unit saw its first action in the assault on Dieppe, R. C. A. F. headquarters announced today.

Originally the 110th (City of Toronto) Squadron, it has been in Britain since early in 1940, and since then many of its pilots have left to join other more active squadrons.

Together with other army co-operation units of the R.C.A.F. and the Royal Air Force, the squadron had the job of going deep behind the enemy to determine the amounts of reserves being brought up by the enemy.

One pilot was lost in the day's operations.

The following airman took part: Flight Lieutenant H. P. Peters, Edmonton, and Paul Basky, Saskatoon; Flying Officers W. F. Gordon, Red Deer, Alta.; S. M. Knight, Calgary; and J. A. Stephens, Leadville, Sask. Pilot Officers J. A. Roberts, Calgary; M. B. Pepper, Vancouver; A. T. Carlson, Calgary; and A. Merton, Didsbury, close.

101—FIRST OUT

LONDON.—(CP)—Gannons of the anti-aircraft division guarding England's South coast pushed their score of anti-aircraft destroyed more than the 100-mark by shooting down two raiders in two nights. Their divisional commander—a crackler—sent them this message: "Congratulations on score of 101 not out. Keep it going."

Birds possess both the keenest and most far-sighted vision.

Beef Shortages Still Reported

OTTAWA, Sept. 10.—(CP)—With reports of beef shortages in Canada still being received, Wartime Prices and Trade Board officials said today they anticipate an improvement in cattle marketing in about a week, as a result of a new plan to encourage sales which was announced last Friday.

"We really could not expect that cattle would begin moving to the market in increased numbers within a few days after the plan was announced," an official said.

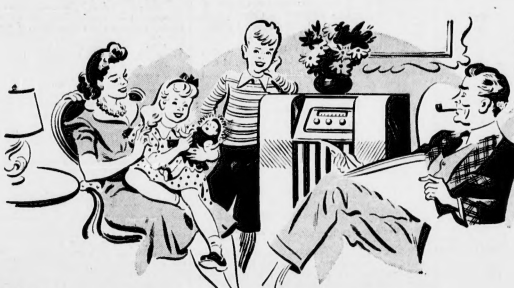

"But we are confident that the plan under which the Wartime Food Corporation will be the only exporter, and will buy only when Canadian prices fall below certain levels, will result in enlarged cattle marketing and subsequent relief of beef shortages."

GREW, THEN VANISHED

Some mammals originated on the earth as dog-sized species, attained the bulk of an elephant, and then disappeared completely, all in 20,000,000 years.

YESTERDAY... IN ENTERTAINMENT TODAY... IN COMMUNICATIONS

YESTERDAY, radio's task was to bring the world's greatest personalities, music, drama into millions of homes. Today the voice of radio moves armies, navies, air armadas like pawns on a mighty chessboard.

Canadian Nickel has long contributed to the efficiency of radio communication. All radio tubes, and many other essential parts of transmitting and receiving equipment function better because of Nickel.

With the Empire at war, there is an increasing demand for Canadian Nickel for use in the radio and telephone equipment used in military communication.

In time of peace, Canadian Nickel assists industry to achieve increased efficiency and economy. In war, it is an important constituent in hundreds of devices which are essential tools of victory.

Export Wheat

Sales Feature

WINNIPEG, Sept. 10.—(CP)—Trading on the Winnipeg grain exchange today was featured by the sale of approximately 1,000,000 bushels of Canadian wheat to the United Kingdom.

The wheat futures pit was covered during the session by a large number of contracts in the cash wheat market.

Offerings were light in size and prices were steady.

Barley was sold by buyers and sellers in the market.

Winnipeg grain prices were made after a quiet session.

Looking Them Over

By Jack Kelly

WHEN Sergeant Joe Louis and Private Billy Conn haul off and start throwing punches on Oct. 12 for the world's heavyweight championship, it will be a fight unique in the annals of boxing — the world's title at stake with neither the defending champion nor the challenger getting a single nickel out of it.

But more amazing still is the fact that the promoter also will get nothing for his work. That is Max Baer and it seems he is really tickled to death that he was selected as the man to stage this history-making bout.

The entire game goes into the U.S. army's charity fund, or benevolent fund or whatever its official name is.

If the battle does not cross a million dollars, it will be nothing less than a miracle. The fight and the set-up will appeal to every man who ever had the slightest interest in boxing.

OPEN QUESTION

FROM a sport writer's angle, the fight has even more interesting angles. It will answer the open question of how army personnel affect top-notch boxers. Will Conn be slowed up and his timing off? Will Joe and Billy have as much stamina as they had when they first met and slugged that 15-round thriller? Will army life have given Conn a harder physique better able to stand up under the blows from the hardest puncher in the world today? Will Louis still be as keen and deadly as ever?

Off hand you say both principles should be tougher physically than they were in their first meeting, but fight trainers are a bit doubtful of this. They point out that conditioning for a ring fight is a highly specialized job that brings a man up to a high level in addition to the physical and therefore the latter is not likely to be so near perfect.

Reiser Six Points Down

Ernie Lombardi Threatens To Cop National Swat Title

NEW YORK, Sept. 10.—(AP)—The National League may have big Ernie Lombardi of Boston Braves for a batting champion again this year even though he has been at bat only 256 times and stands no chance of getting the 400 turns at the plate which customarily qualify hitters for major league leadership.

No Cauliflower

The husky catcher who captured hitting honors as well as the most valuable player award in 1932 while with Cincinnati Reds, now has an average of .325, six points ahead of Brooklyn's Pete Reiser, and it was learned Wednesday may get the official blessing of the National League if he finishes on top.

For Fredrick president of the senior circuit, has refused to be drawn into the question prematurely. But he has the right to designate the player the league considers the official batting champion.

In 1932 when Lombardi topped all other hitters, his league hit .248, while his own batting average was .342 while going to bat 489 times in 129 games.

This year he has appeared in 93 games and made 87 hits in 256 turns at bat. The Braves have 19 games left to play, making it likely that Lombardi will get into more than 100 games without difficulty although his total times at bat may not reach 400.

Reiser, who won the championship last year with .343 percentage while batting 538 times in 137 games, this season has been at bat 415 times in 109 games.

Conn Starts Training Monday
NEW YORK, Sept. 10.—(AP)—Pete Billy Conn received his orders from the war department at Fort Wadsworth Wednesday to train him a furlough to fight Sgt. Joe Louis in his heavyweight championship Oct. 12. He promptly packed up and left for a brief visit to his home in Pittsburgh.

Conn will begin training at Monroeville, Pa., Monday. Louis is due here Friday and also is expected to start training Monday at Greenwood Lake, N.J.

Joe Louis gains Sergeant Stripes
FORT RILEY, Kas., Sept. 10.—With brand new sergeant's stripes sewed to his uniform, Joe Louis moved on the first day of a journey that will lead to a fight with Billy Conn in New York City Oct. 12 in defense of his heavyweight boxing crown.

Louis was promoted from corporal to sergeant just a few hours before he departed for Kansas City. At the same time he was granted an emergency 7-day furlough, which will give him four days to return to camp after the fight.

THURSDAY, SEPTEMBER 10, 1942

"Swing Your Partner!"

Just now I'd say my lettuce on the table is as green as the boys are ready to climb into the ring. I can't consider it prudent to copper with a wagger.

Tom talks of swinging in at around 175 and that means he will still be nothing but a husky lightweight. I just can't see any lightening about a heavyweight like Corporal Louis. It would be more correct to say—"a heavy-weight like Louis was a year or two ago."

There is a lot of chatter about Louis being bound to slip, that he is getting older, that he has lost his ambition and so on, but most of this is just chatter.

NEW INCENTIVES

Louis is certainly getting older. But a colored athlete retains his physical perfection much longer than a white man, and Joe is seriously burdened with years yet. With army life and training behind him now, Joe will probably be keener than ever to retain his fighting lust. His buddies will all be backing him with every cent they can get together and as a man's man dies before he lets his buddies down.

There is no man makes me pray for the Arrows, but experience tells me that a fighter about his only hope. True he stayed 13 rounds with Louis once before, but he was a brilliant boxer and was a mile from the lethal blows of a two-hundred pounder. Unless the camera missed it, Conn never had Louis in any serious trouble in that first fight. None of his punches appeared to pack the sort of explosive needed to wreck the champion.

Buddy Hassett is safe in square-dance action as Cleveland Indians beat New York 6-5, in final appearance at Yankee Stadium. Jimmy Hegan is first baseman's partner on rain-soaked field at plate. Hassett scores on Joe DiMaggio's rap to Lou Boudreau. Square-dance caller is Bill Summers.

Don McIntyre Bats .375

Ralph Morgan Tops List Baseball League Averages

Compiling an average of .380 during 13 games, Ralph Morgan, coach of the Hornets, won the batting championship of the Edmonton Senior Baseball League during the regular season.

Don McIntyre of the Dodgers finished in second place with .375 and Johnny Gertz, star of the Hornets was third with .353.

Eddie Williams was top man for the Arrows and he wound up with an average of .324 in fourth position. Jim Kelly, of the Hornets, led the league for most of the year slipped during the last few games and wound up fifth with .296.

Morgan was at bat 50 times, drew seven runs and accumulated a total of 19 hits, two of which were doubles and one a triple. He bled six bases on balls, batted in four runs, stole four bases and was struck out only twice.

HIGH FOR DODGERS

McIntyre made 12 hits in his 32 turns at bat. He had one double, drew only a pair of passes and he batted in six runs which was highest for the Dodgers.

Morgan also topped the list in total hits made. His 19 was one better than Joe Shandrow's total. Joe fattened his batting average during the last few games and wound up in sixth place, being second high man for power with 257. Kelly had 16, and Hackler and Tougas 15.

Don Hackler of the Hornets won a 2-2-2-batting average with eight, two better than Mac Colville and Don McIntyre.

Fredrick Lupul and Jim Kelly tied for runs scored with 17 each.

Lupul got for more time than anyone else in the league and he topped the figures for bases on balls for power with 257. Kelly had 16, and Hackler and Tougas 15.

Don Hackler of the Hornets won a 2-2-2-batting average with eight, two better than Mac Colville and Don McIntyre.

Ken Samis and Ray Cox were high in runs scored with three each, and Joe Cherniowski had two triples.

LEADS IN STOLEN BASES
Lupul led the stolen-base parade with seven, three more than Morgan, and two more than both Patry and Cox, who finished second in that respect.

Williams and Lupul led in sacrifice hits with three each, and Shandrow, Samis, Terris and Hackler all had a pair.

Doug Stevenson was at bat 69 times, the highest of any player and Shandrow was next with 62. Tougas was next at 61 times and Hackler 60.

Patry was struck out 19 times during year and he had three bases on balls and one triple. Neen and Dandowich all whiffed 16 times.

Ken Samis never got on base with a ball and was never struck out. Albright's percentage was hit-by-pitcher three times.

Hackler, Shandrow and Tougas played all of their league games and Kelly also appeared in 16. Jim helped the Arrows win the championship Oct. 12. He promptly packed up and left for a brief visit to his home in Pittsburgh.

Conn will begin training at Monroeville, Pa., Monday. Louis is due here Friday and also is expected to start training Monday at Greenwood Lake, N.J.

Patry was struck out 19 times during year and he had three bases on balls and one triple. Neen and Dandowich all whiffed 16 times.

Ken Samis never got on base with a ball and was never struck out. Albright's percentage was hit-by-pitcher three times.

Hackler, Shandrow and Tougas played all of their league games and Kelly also appeared in 16. Jim helped the Arrows win the championship Oct. 12. He promptly packed up and left for a brief visit to his home in Pittsburgh.

Conn will begin training at Monroeville, Pa., Monday. Louis is due here Friday and also is expected to start training Monday at Greenwood Lake, N.J.

THURSDAY, SEPTEMBER 10, 1942

"Swing Your Partner!"

Just now I'd say my lettuce on the table is as green as the boys are ready to climb into the ring. I can't consider it prudent to copper with a wagger.

Tom talks of swinging in at around 175 and that means he will still be nothing but a husky lightweight. I just can't see any lightening about a heavyweight like Corporal Louis. It would be more correct to say—"a heavy-weight like Louis was a year or two ago."

There is a lot of chatter about Louis being bound to slip, that he is getting older, that he has lost his ambition and so on, but most of this is just chatter.

NEW INCENTIVES

Louis is certainly getting older. But a colored athlete retains his physical perfection much longer than a white man, and Joe is seriously burdened with years yet. With army life and training behind him now, Joe will probably be keener than ever to retain his fighting lust. His buddies will all be backing him with every cent they can get together and as a man's man dies before he lets his buddies down.

There is no man makes me pray for the Arrows, but experience tells me that a fighter about his only hope. True he stayed 13 rounds with Louis once before, but he was a brilliant boxer and was a mile from the lethal blows of a two-hundred pounder. Unless the camera missed it, Conn never had Louis in any serious trouble in that first fight. None of his punches appeared to pack the sort of explosive needed to wreck the champion.

Buddy Hassett is safe in square-dance action as Cleveland Indians beat New York 6-5, in final appearance at Yankee Stadium. Jimmy Hegan is first baseman's partner on rain-soaked field at plate. Hassett scores on Joe DiMaggio's rap to Lou Boudreau. Square-dance caller is Bill Summers.

Don McIntyre Bats .375

Ralph Morgan Tops List Baseball League Averages

Compiling an average of .380 during 13 games, Ralph Morgan, coach of the Hornets, won the batting championship of the Edmonton Senior Baseball League during the regular season.

Don McIntyre of the Dodgers finished in second place with .375 and Johnny Gertz, star of the Hornets was third with .353.

Eddie Williams was top man for the Arrows and he wound up with an average of .324 in fourth position. Jim Kelly, of the Hornets, led the league for most of the year slipped during the last few games and wound up fifth with .296.

Morgan was at bat 50 times, drew seven runs and accumulated a total of 19 hits, two of which were doubles and one a triple. He bled six bases on balls, batted in four runs, stole four bases and was struck out only twice.

HIGH FOR DODGERS

McIntyre made 12 hits in his 32 turns at bat. He had one double, drew only a pair of passes and he batted in six runs which was highest for the Dodgers.

Morgan also topped the list in total hits made. His 19 was one better than Joe Shandrow's total. Joe fattened his batting average during the last few games and wound up in sixth place, being second high man for power with 257. Kelly had 16, and Hackler and Tougas 15.

Don Hackler of the Hornets won a 2-2-2-batting average with eight, two better than Mac Colville and Don McIntyre.

Fredrick Lupul and Jim Kelly tied for runs scored with 17 each.

Lupul got for more time than anyone else in the league and he topped the figures for bases on balls for power with 257. Kelly had 16, and Hackler and Tougas 15.

Don Hackler of the Hornets won a 2-2-2-batting average with eight, two better than Mac Colville and Don McIntyre.

Ken Samis and Ray Cox were high in runs scored with three each, and Joe Cherniowski had two triples.

LEADS IN STOLEN BASES
Lupul led the stolen-base parade with seven, three more than Morgan, and two more than both Patry and Cox, who finished second in that respect.

Williams and Lupul led in sacrifice hits with three each, and Shandrow, Samis, Terris and Hackler all had a pair.

Doug Stevenson was at bat 69 times, the highest of any player and Shandrow was next with 62. Tougas was next at 61 times and Hackler 60.

Patry was struck out 19 times during year and he had three bases on balls and one triple. Neen and Dandowich all whiffed 16 times.

Ken Samis never got on base with a ball and was never struck out. Albright's percentage was hit-by-pitcher three times.

FOR 32 YEARS CANADA'S

GREATEST CLOTHING VALUE

For Fall—

The World's Greatest Values in British Woolens

TIP TOP TAILORS' values in British woolens are unequalled. Nowhere but at Tip Top Tailors can you get such a wide choice of beautiful patterns or choose from so many superlative fabrics at this modest price.

Tip Top Tailors have had 32 years of business relationship with those skilled British craftsmen who produce the finest woolens in the world. This knowledge plus great buying power, makes these exceptional values.

More Canadians wear Tip Top clothes than any other kind and we assure them that never in our 32 years' experience have we offered finer quality woolens than this Fall. Our tailoring is, as usual, the same fine quality that has made our value famous.

Tailored-to-Measure \$30⁷⁵

We suggest you allow a little more time than usual for deliveries, as the requirements of our Armed Forces come first, of course. Make an early selection from these beautiful woolens and have this Fall's suit, topcoat or overcoat hand-cut and tailored to your personal measurements at this all-time value giving price.

LADIES

Tailored outfits are the economical clothes for today. Order yours, individually tailored, at \$27. Tailors from a wide range of fabrics and styles. High-priced custom service at low-priced big value—\$32.00.

TIP TOP TAILORS Limited

headquarters said those listed as wounded were caused by shelling from the Dieppe attack last month. This brought to 925 the unofficial count of reported casualties believed attributable to the battle on Dieppe. This total includes 16 dead, 602 wounded, 13 not diagnosed, one in hospital, six suffering from exposure, one with a superficial injury and 120 missing.

Yesterday's list raised to 1,073 the total number of army men officially reported dead and missing since the war began.

Following is the latest list with next-of-kin:

OVERSEAS

DIED

Royal Canadian Army Service Corps
Ava, Frank Frederick, Pte. Mrs.
Lillian Louise Ava (wife), Hamilton.

SERIOUSLY ILL

Royal Canadian Artillery
O'Neill, Leonard Vincent Joseph, Gun. Mrs. Florence O'Neill (wife), Hamilton, Ont.

India Riots Mark First Anniversary Gandhi's Detention

BOMBAY, Sept. 10.—(CP)—A wave of disturbances in various parts of India marked the end of the first month of detention under Gandhi's detention yesterday, and reports said several persons had been sentenced by gunfire. No deaths were reported.

Three hundred and fifty persons were arrested here and elsewhere in India. Sixty persons were arrested in the northwest frontier province in the first disturbances there. R. Gandhi and other leaders of the All India Congress demand release after the congress began a civil disobedience campaign to win immediate Indian independence.

Police and troops patrolled the streets of New Delhi. At Karachi nine hours were hanged for various offences, making a total of 60 executed since the government proclaimed martial law in dealing with these fanatical tribesmen.

The War Today

By JOHN COLLINGWOOD READE

Pooling of Allied Resources Has Put Net Around Germans

The critical days are forming into weeks and the weeks are passing slowly, without disaster. The German habit of concentrating upon one thing at a time has been a valuable force served them well when the of the United Nations were weak and divided, but the Germans are holding to this practice long after it has ceased to serve them well.

This summer, for the first time, they are encountering a group of enemies who have pooled their resources, agreed upon their strategy and decided to consider all fighting fronts as part of a single pattern of war.

That is why Hitler can no longer afford to go after one objective at a time with everything he possesses, confident in the knowledge that his enemies cannot take action on their own initiative to undo in another theatre what he has been at pains to accomplish in the first. Yet it is now clear that the massing of Allied air strength in the Middle East while Hitler was storming the North Caucasus, and the steady development of the Allied air offensive in the West may completely upset his plans. The Russians themselves have not been so much expected, but they have been standing doggedly with bleeding heads accepting the shattering blows directed at them in the south, but handing their offensive strength for use in the north.

AMERICANS WELL LED

The Anglo-American combination may not be ready to strike in the West as yet, but it has been able to assume a sufficiently tactless attitude to leave the matter very much in doubt, and thus has German optimism. The Germans expected great things of the Japanese offensive which would immobilize the Japanese forces, or at least divert them into the Pacific.

But American public opinion was well led. And the first impulse of the American public to demand the retention of American forces for home defence, or at least the application of American power exclusively against the Japanese, was soon succeeded by a more realistic appraisal of Axis plans and purposes.

The result has been that American tank formations and air forces have been sent both to the Philippines and to the Middle East, which was not at all in accordance with Hitler's plan.

What if Rommel is smashed in North Africa before Germany can complete her conquest of the Caucasus? In that case, there would be a great concentration of Allied strength available for the assault on Transcaucasia to bolster Timoshenko's armies, while the great weight of the main Red army is bearing down on the Germans' northern flank.

Problems for Germany. It looks at present as though it will only be a matter of days before Stalingrad is taken. But it has looked that way for some time. If and when Stalingrad falls, the pressure on the Black Sea and Caspian fronts will be increased. Moreover, has already been brought close to the stage of siege and the Germans are inching their way down toward Gromy.

As against this, the stubborn defence of Stalingrad is wearing down the German armored strength and breaking up German mobile infantry and artillery formations. Russian pressure on the central front is not changing the situation before Stalingrad. The German has set their minds on the capture of Stalingrad and are not to be diverted by the stubborn defence of Stalingrad.

It is its effect on the Central Front. Unwilling to divert their strength from the scene of their offensive, the Germans have thrown second reinforcements into the field against General Zhukov, who is steadily undermining the German position along a broad front. And a great advantage upon whether the Germans have sufficient strength in reserve to rehabilitate their winter positions along the front from Leningrad to Voronezh, developing their offensive into the Caucasus Mountains, provide reinforcements and air support for Rommel in Egypt and still maintain adequate defenses against a possible Allied attack in Western Europe.

DISRUPT TRANSPORTATION

It is the Japanese plan to accomplish reserve strength to fulfill all these purposes and satisfy these needs, it is still necessary for them to possess the transportation facilities to move their strength where and when it is needed. The Royal Air Force and the Russian Air Force are working together now to deprive the enemy of his transportation, or at least to dislocate it. It is still necessary for them to possess the transportation facilities to move their strength where and when it is needed. The Royal Air Force and the Russian Air Force are working together now to deprive the enemy of his transportation, or at least to dislocate it.

Here he might expect help from the United States. It is still necessary for them to possess the transportation facilities to move their strength where and when it is needed. The Royal Air Force and the Russian Air Force are working together now to deprive the enemy of his transportation, or at least to dislocate it.

The attack on Budapest, for instance, was definitely aimed at the

transportation bottleneck leading from Germany into southeastern Europe, and nearly all the recent heavy raids have been directed at railway shipping centers or at shipyards and railway equipment plants.

The news from the fighting fronts is inconclusive. Rommel has been forced back during the last few days, but his explanation is that he has been hit heavily in tanks and equipment. But the major battle for Kefel has not yet begun. The Allies are attempting to disorganize Rommel's supply and disperse his concentrations by air attack before hitting him with everything they have.

A successful raid with heavy bombers was made on enemy shipping in Crete, while an intruder force attacked the Candia airbase and held Axis aircraft in one engagement. Tobruk, on the receiving end of the Axis trans-Mediterranean supply route, was also heavily bombed. But the battle for the Middle East has yet to be fought on any of the possible battle grounds.

WHAT WILL JAPS DO?

There is much speculation as to the possibility of an imminent Japanese attack on Siberia. It is hard to believe that the Japanese would be so foolish. Undoubtedly the Japanese have transferred large forces from Eastern China, but it would be very late in the season for them to consider attacking Siberia. A Japanese attack on Russia's Pacific territory could not in any way alter conditions on the western Russian front.

14-Hour Day

A 14-hour day will begin Tuesday for the Edmonton office. The Unemployment Insurance Commission is in order to meet the needs of men and women who have been separated from employment. William Carroll, manager, has announced. The office will open at 7 a.m. and close at 9 p.m. in order to place employees in new positions, so that no time will be lost.

Pedro Alvarez Cabral discovered Brazil on April 22, 1500.

H. G. Turner, secretary of the Edmonton committee, Alberta Music Festival Association, who is working unceasingly on arrangements for the 1943 and 1944 district music festivals to be held here.

possible that the Japanese might feel it necessary to undertake limited operations in Eastern Siberia to obtain buffer territory between the Sea of Japan and the mouth of the Amur as insurance against the future. If so, the attack would be made soon and its objectives would be strictly limited.

Any major offensive operation with the Japanese may contemplate much logically concerned with India and Australia. It would be protective in the case of Australia, and offensive against India.

German successes in the Caucasus may encourage the Japanese to press for a showdown in the Middle East. A success here would protect the back door to the Far East, isolate her most powerful enemy, China, and open trading routes to other Axis-dominated territories.

The accompanying map shows how widely dispersed the Japanese forces are and where they are located. It also shows the general direction of possible Allied counter-offensives and illustrates the importance to Japan of pointing her main thrust against India.

14-Hour Day

A 14-hour day will begin Tuesday for the Edmonton office. The Unemployment Insurance Commission is in order to meet the needs of men and women who have been separated from employment. William Carroll, manager, has announced. The office will open at 7 a.m. and close at 9 p.m. in order to place employees in new positions, so that no time will be lost.

Pedro Alvarez Cabral discovered Brazil on April 22, 1500.

The attack on Budapest, for instance, was definitely aimed at the

Secretary of Health Board in Resigns Post

Resignation of S. Main, secretary of the Edmonton Local Board of Health, was accepted with regret by the board at a meeting held Wednesday afternoon at the Civic block. Mr. Main was granted leave of absence until December 31, when his resignation will become effective.

Miss C. R. Rose, of the health board staff, was appointed acting secretary during the term of Mr. Main's leave of absence, and her resignation will be considered at the board's December meeting.

ILL SEVERAL MONTHS

Mr. Main, who has been with the department for more than 37 years, has been in ill-health for several months, and has been ordered by his medical advisor to take a complete rest.

He would have reached the retirement age at the end of this year. The board, recognizing the faithful service he has rendered the city, and also the fact that during his 37 years of service he has only had 180 days of sickness, granted him leave of absence on full pay for one month, and on half pay for two months.

Dr. G. M. Little was given authority to engage a qualified sanitary engineer, and also to employ a sanitary inspector trainee. It was intimated to the meeting that Alexander, junior sanitary inspector, will join the active army.

Leave of absence during his term of service was granted by the board.

Instructions were issued to the medical health officer to continue his efforts to eliminate the nuisance caused by the city dump at 82 street. Dr. Little reported that moving of the dumping ground up from the rear of the dwelling and the covering of the dump with earth had improved conditions.

Dr. Little was instructed also to investigate the re-sale of milk supplied in bulk with a view to eliminating this practice on health grounds.

There were a total of 3073 grade crossing motor vehicle accidents in the United States during 1939.

Minister Makes Alterations in Game Laws

Continued from Page Nine. elk hunting area in the north to include that district between the Brazeau and North Saskatchewan Rivers. The elk area is now defined at the Penhina-Brazeau elk reserve and adjacent areas and the shooting season is Oct. 1 to Dec. 12.

The elk season in the Pincher Creek area in southern Alberta is Oct. 1 to Dec. 31.

TWO MALES ONLY

Antelope hunting regulations have been changed to restrict the season's bag to two males, of which one could be a female.

Coincidentally with the report of changes in the game regulations was the announcement that Americans serving in the armed forces in Alberta, as well as members of His Majesty's active service units, would be permitted to hunt free in this province during the hunting season.

Such persons must obtain a special license, for which there is no charge. Licenses will be issued only to soldiers, sailors and air force men on receipt of a letter from their officers commanding that they are members of active service units serving in Alberta.

V.V.R. Planning To Hold Smoker

Opening activities for the fall and winter season, the North Edmonton Battalion, Veterans' Volunteer Reserve will hold a smoker on Friday, Sept. 11, at headquarters.

It is announced by Capt. H. Pearson C.M.C., officer commanding, program will commence at 8 p.m. No parade will be held on Monday, Sept. 14, but on Thursday, Sept. 17, the battalion will parade in the square of the Mounted Police barracks at 4 p.m.

A full turnout is requested for this parade, as shooting details will be made up under Mr. Cowan, musketry officer.

Adjourn Meeting

The regular semi-monthly meeting of the city council finance committee was adjourned Wednesday to enable members to attend the banquet tendered by the City.

at Edmonton welcoming the members of the Moose Squadron who are making a tour of Canada. One American manufacturer sold 20,000,000 checker boards in a single year.
